

OR

The screenshot shows the HY Robotics control interface. At the top, there is a status bar with 'master', '50%', and 'HY ROBOTICS' logo. Below it is a toolbar with various icons and a 'TEACH' button with the number '7'. A table displays error logs with columns 'Cl.', 'Time', 'St.', and 'Description'. The first row shows an error at '7/19/21 4:05 PM' with the description 'Robot: Program execution not possible due to missing operation release'. To the right of the table, there are two filter buttons: a yellow one with a warning icon labeled 'Warning' and a red one with an error icon labeled 'Error'. A black box with the text 'Select Filter' has a red arrow pointing to the 'Error' filter button. At the bottom, a 'Filter:' dropdown menu is set to 'Error' and is also highlighted with a red box. Below the filter are buttons for 'Confirm', 'Confirm All', 'Help', 'Disp. ID', and 'Create CSV'.

This screenshot shows the same HY Robotics control interface as the first one. The error log table is highlighted with a red box. A black box with the text 'Check details' has a red arrow pointing to the error entry in the table. Another red box highlights the detailed error message at the bottom: 'Robot: Program execution not possible due to missing operation release (active main mode: Automatic)'. The 'Filter:' dropdown menu is also highlighted with a red box. The bottom buttons 'Confirm', 'Confirm All', 'Help', 'Disp. ID', and 'Create CSV' are visible.
